Emergency Services

The Cheshire Animal Clinic & Pet Hotel provides the highest quality care in a friendly, relaxed setting. We strive to care for our boarding guests with the same philosophy to make their stay as comfortable and enjoyable as possible. We hope that you will refer your family and friends to our practice.

If you need a practice for veterinary care or kennels convenient to Buckhead, Midtown, Lenox, and Cheshire Bridge area, look no further.

At this site, you will find information [about our practice](#), our [services](#) and [staff](#), helpful [policies](#) to assist you, and an extensive [pet medical library](#).

The well-being of your pet is our first priority. Our pets can't tell us what they need and how they feel. That's why preventive medicine is so important. It helps us to stop problems before they happen.

We are here to help your pet live a long and healthy life and we are doing it by focusing on wellness services. The important services include physical exams, necessary vaccinations, proper nutrition for your pet considering age and breed, and testing for healthy kidney, heart and liver function.

We also provide bath, grooming, and [boarding](#) services. We can tell you about important new products and recommend services that ultimately prolong your pet's life.

We look forward to working together to ensure your pet lives a happy, healthy life.

The health and welfare of your pet is our top priority and we hope that you will stop by for a tour.

We are proud of our animal-care staff and our goal is to provide consistently compassionate care to your loved ones.

We strive to make your pet's stay as comfortable (and fun) as possible.

Monthly rates are discounted 15% and are paid in advance.

[What are the hours for drop-off and pick-up?](#)

Comfort and fun

Your dog will receive good care.

- 2 daily feedings
- Walks outside for fresh air 2-3 times daily
- 2-3 hours in the outdoors on nice days for barking-fun-times
- Almost 1 hour of individual employee time daily
- Outdoor runs and play areas are covered for rainy or hot days
- Fleece bedding at night for a comfortable sleep

Your pet will enjoy the accommodation.

- Large air-conditioned room with large volume air circulation and temperature controlled to levels consistent with home environments.
- Similar to a gymnasium with large runs approximately 6' X 4'.
- Vaulted ceilings and large windows for natural lighting.
- Outdoor runs in a large, graveled open area in the rear of the building, covered for rain protection and shade in hot weather.
- For cats, a quiet area away from the hustle and bustle of all "those rowdy dogs" in large enclosures (3'D x 5'W x 6'H) with multi-level components that facilitate exercise and improved circulation.

Matt McGee

House food

All dogs are fed CNM-EN, which is a premium prescriptive diet that is designed to reduce the incidence of excitement or stress induced diarrhea, a common occurrence while boarding. All cats receive Science Diet. They typically do not get stress-induced diarrhea.

Cleaning

The indoor and outdoor dog areas are completely cleaned daily. We take extra steps by applying anti-viral, anti-bacterial solutions and active antibacterial enzymes to all areas after they are cleaned. This is a costly process in labor and materials, but we want to assure our guests' health and well being with optimal care during their stay.

Flea Treatment

All pets receive a flea treatment upon arrival regardless of any flea preventatives they are currently using. Even in the best of circumstances, animals will bring in a flea or two. This treatment assures the comfort of all that stay and prevents a devastating flea infestation of the facility.
